### **POSITION SUMMARY**

The Chief Healthcare Delivery Officer (CHDO) will lead the Excellence in Screening & Care department (ESC) which currently includes our Centers of Excellence (COE) networks: 1) the screening network which has more than 780 member medical facilities that offer high-quality lung cancer screening in a continuum of care, and 2) the care continuum network of 30 members that are community hospitals delivering best practice in lung cancer care from early detection through later stage diagnosis, treatment, care and survivorship. The CHDO will oversee the effort underway to align these programs into one designation.

The CHDO will continue to strategically grow the ESC department, drive patient utilization and engagement, and expand its scope to include broad healthcare outreach, engagement and education to a variety of healthcare providers with the goal of improving early detection rates and outcomes for lung cancer patients especially in community settings nationwide. The CHDO will also oversee special pilot statewide initiatives that seek to reach those more vulnerable and underserved with high quality screening and care in our provider network.

The CHDO will also oversee government affairs and health policy strategies to ensure the policy and regulatory environment align with these goals and objectives.

The CHDO will manage the data analytics tools to assess the status and impact of lung cancer screening and care delivery within the COE network, to inform program strategies and growth opportunities, and to anticipate needs within the lung cancer screening and care landscape. The CHDO will continue to build the robustness of these data analytics efforts, expand their uses and audiences, and ensure publishing opportunities are evaluated and conducted.

The CHDO will work cross-functionally across GO2 Foundation departments including Patient & Support Services, Science & Research and Community Engagement to leverage expertise in meeting the needs of the health care provider audience.

The CHDO will develop ESC departmental strategic plans, budgets, goals, and key performance indicators (KPIs) that align with GO2 Foundation's overarching vision and mission and in coordination with GO2 Foundation's senior leadership.

## **ESSENTIAL FUNCTIONS AND RESPONSIBILITIES**

To perform this job successfully, an individual must be able to perform each essential function satisfactorily. Reasonable accommodations may be made to enable individuals with a disability or disabilities to perform the essential functions.

- Devise and execute goals and strategies to expand the COE network and foster relationships with the healthcare provider (HCP) community nationally to advance high quality screening, treatment, and care in the community setting with a focus on the underserved, striving to identify and remove roadblocks to screening, treatment and care
- Identify, educate, engage, and maintain relationships with HCP thought leaders about GO2 Foundation, working with the Scientific Leadership Board, and establish formal partnerships with their respective institutions and professional societies in mutual areas of interest that advance our mission
- Ensure strategic team expansion across the U.S. leading efforts to grow the COE network and delivery of comprehensive services, including technical assistance, best practice sharing, capacity building, and other tools and resources to ensure excellence in the network
- Oversee the COE National Summit with comprehensive program providing latest advancements for improving screening and care with expert training, sharing of best practices, community building, and opportunities to participate in innovative research to create an effective peer learning network
- Strategically improve COE network benefits that encourage more participation and engagement across departments, such as peer to peer learning through the online "Excellence Exchange", co-branding of educational materials, participation in events, and engagement in advocacy that impacts the lung cancer community
- Identify opportunities to work across departments to reach vulnerable, underserved and special populations in states of high incidence/high mortality/low capacity, including formal partnerships with institutions, such as the Department of Veterans Affairs to screen our high risk veterans

- Ensure deployment and ongoing improvement of the annual COE network data collection process to further demonstrate (and publish on) effectiveness of screening implementation in the community setting, expand risk criteria to broader population, utility of incidental findings, identification of other priority research studies based on data findings – and ongoing program quality improvement and impact measures
- Collaborate with the Communications & Marketing department to produce and deliver screening education and molecular testing campaigns with companion brochures that can be utilized by the COE network in their communities
- Lead Government Affairs and Health Policy team to develop strategies that protect and expand federal research funding, shape healthcare delivery systems, oversee National Advocacy Summit planning, expand coverage and reimbursement for screening and care/diagnostics/biomarker testing/treatment (USPFTF, Medicare/Medicaid, state cancer plans, etc.)
- Lead team in analyzing latest medical information on best practice screening, treatment and care into easy to understand presentations for the general public, patients and HCPs, including website content, newsletters, and press releases
- Represent GO2 Foundation at the National Lung Cancer Roundtable, national professional conferences (ASCO, IASLC. etc.), and strategic medical facility meetings
- Serve as a member of the GO2 Foundation leadership management team guiding the organization to mission success.

Other duties as assigned. This job description is not designed to cover all activities, duties or responsibilities that are required. Duties, responsibilities and activities may change at any time with or without notice.

## **SUPERVISORY RESPONSIBILITIES**

The CHDO position will supervise a large group of direct and indirect reports, including the following teams: Excellence in Screening and Care, Economics and Health Policy, and Government Affairs.

## **COMPETENCIES**

- Familiarity with hospital/clinical screening and treatment programs and protocols
- Aptitude for understanding medical literature and public health landscape that correlates with the continuum of care for lung cancer beginning with prevention and ending with long-term survivorship
- Strong people leadership qualities with proven ability to lead effective and collaborative programs and support and coach remote teams
- Excellent written and oral communication, training and presentation skills
- Exhibits excellent judgment and decision-making ability; strategic and critical thinker
- Highly motivated and goal-oriented, able to deal with fast pace, unanticipated events, deadlines and multiple priorities

Empower Everyone. Ignore No One.

- Experienced in developing and managing program budget
- Computer proficiency with Microsoft Word, Excel, PowerPoint, Teams

## **REQUIRED EDUCATION / EXPERIENCE**

- Advanced degree in nursing, medicine and/or public health
- Minimum of 10 years professional experience in leadership program management within the medical field, public health and/or social services
- Experience in community/rural hospital or health care settings and preferably with lung cancer screening and care
- Experience in devising advocacy strategies.

## **WORK ENVIRONMENT / PHYSICAL REQUIREMENTS**

This job will be performed in an office environment (GO2 office or remote/home office), primarily sitting at a desk and using a computer and phone. In order to perform the essential functions of the job, the employee must be able to operate a computer and other office equipment. The noise level in the work environment is usually low to moderate. Reasonable accommodations may be made to enable individuals with disabilities to perform the essential functions.

## **TRAVEL REQUIREMENTS**

This position will require regular travel to GO2 office locations, conferences and events pertinent to the position.

## **EEO STATEMENT**
