CHIEF HEALTHCARE DELIVERY OFFICER (CHDO)

GO2 Foundation for Lung Cancer is a nationally groundbreaking healthcare nonprofit that transforms survivorship as the world’s leading organization dedicated to saving, extending, and improving the lives of those vulnerable, at risk, and diagnosed with lung cancer. We work to change the reality of living with lung cancer by ending stigma, increasing public and private research funding, and ensuring access to care.

WE ARE HIRING a Chief Healthcare Delivery Officer (CHDO), in our Washington, DC office, our San Carlos, CA office or remote location.

The CHDO will lead and continue to grow the Excellence in Screening and Care (ESC) department which includes two Centers of Excellence networks: 1) The screening network which has more than 700 member institutions that offer high-quality lung cancer screening in a continuum of care and 2) The care continuum network of 30 members that are community hospitals delivering best practice in lung cancer care from early detection through later stage diagnosis, treatment, care and survivorship.

REQUIRED EDUCATION AND EXPERIENCE INCLUDE:

- Advanced degree in nursing, medicine and/or public health
- Minimum of 10 years professional experience in leadership program management within the medical field, public health and/or social services
- Experience in community/rural hospital or health care settings and preferably with lung cancer screening and care
- Regular travel will be required

THIS POSITION MAY BE LOCATED IN OUR WASHINGTON, DC OFFICE, SAN CARLOS, CA OFFICE, OR A REMOTE HOME OFFICE LOCATION.

TO APPLY: PLEASE SUBMIT YOUR CV/RESUME AS WELL AS A COVER LETTER INCLUDING SALARY REQUIREMENTS TO: jobs@go2foundation.org

PLEASE ENTER “CHDO” IN THE EMAIL SUBJECT LINE

We offer competitive salaries, a warm and flexible work environment, opportunities for growth and an excellent benefits package (see details below).

ADDITIONAL DETAILS:

ESSENTIAL DUTIES & RESPONSIBILITIES

To perform this job successfully, an individual must be able to perform each essential function satisfactorily. Reasonable accommodations may be made to enable individuals with disabilities to perform the essential functions.
POSITION SUMMARY

The Chief Healthcare Delivery Officer (CHDO) will lead the Excellence in Screening and Care (ESC) department which includes two Centers of Excellence networks: 1) The screening network which has more than 700 member institutions that offer high-quality lung cancer screening in a continuum of care, and 2) The care continuum network of 30 members that are community hospitals delivering best practice in lung cancer care from early detection through later stage diagnosis, treatment, care and survivorship.

The CHDO will continue to strategically grow the ESC department, drive patient utilization and engagement, and expand its scope to include broad healthcare outreach, engagement and education to a variety of healthcare providers with the goal of improving early detection rates and outcomes for lung cancer patients. Additionally, they will lead initiatives to reach underserved patient populations.

The ESC team plays a critical role for GO2 Foundation as it is the channel by which to reach the most patients with the greatest impact. It also serves as a hub by which many of the other GO2 departments can work with and leverage. The ESC team relies on data analytics tools to assess the status and impact of lung cancer screening and care delivery within the Center of Excellence (COE) networks, to inform program strategies and growth opportunities, and to anticipate needs within the lung cancer screening and care landscape. The CHDO will continue to build the robustness of these data analytics efforts and expand their uses and audiences.

The CHDO will work cross-functionally across GO2 with Patient & Support Services, Science & Research, Government Affairs & Health Policy and other teams to leverage expertise to meet the needs of the provider audience as well as work with the ESC team and GO2 leadership to develop annual work and strategic plans, budgets, goals, and key performance indicators (KPIs).

ESSENTIAL DUTIES AND RESPONSIBILITIES

To perform this job successfully, an individual must be able to perform each essential function satisfactorily. Reasonable accommodations may be made to enable individuals with a disability or disabilities to perform the essential functions.

- Devise and execute goals and strategies working with the ESC team to expand the network and foster relationships with the healthcare provider (HCP) community nationally to advance high quality screening, treatment, and care in the community setting with a focus on the underserved.
- Identify, educate, engage, and maintain relationships with HCP thought leaders about GO2 Foundation, working with the Scientific Leadership Board, and establish formal partnerships with their respective institutions and professional societies in mutual areas of interest that advance our mission.
- Ensure strategic team expansion across the U.S. leading efforts to grow the COE network and delivery of comprehensive services, including technical assistance, best
practice sharing, capacity building, and other tools and resources to ensure excellence in the network.

- Oversee the COE National Summit with comprehensive program providing latest advancements for improving screening and care with expert training, sharing of best practices, community building, and opportunities to participate in innovative research to create an effective peer learning network.
- Strategically improve COE network benefits that encourage more participation and engagement across departments, such as peer to peer learning through the online “Excellence Exchange”, co-branding of educational materials, participation in events, and engagement in advocacy that impacts the lung cancer community.
- Identify opportunities to work across departments to reach vulnerable, underserved and special populations in states of high incidence/high mortality/low capacity, including formal partnerships with institutions, such as the Department of Veterans Affairs to screen our high risk veterans.
- Ensure deployment and ongoing improvement of the annual COE network data collection process to further demonstrate (and publish on) effectiveness of screening implementation in the community setting, expand risk criteria to broader population, utility of incidental findings, identification of other priority research studies based on data findings – and ongoing program quality improvement and impact measures.
- Collaborate with the Communications & Marketing department to produce and deliver a screening education and molecular testing campaigns with companion brochures that can be utilized by the COE network in their communities.
- Work with the Government Affairs & Health Policy team to develop strategies that protects and expands coverage and reimbursement for screening and care/diagnostics/biomarker testing/treatment (USPFTF, Medicare/Medicaid, state cancer plans, etc.)
- Lead team in analyzing latest medical information on best practice screening, treatment and care into easy to understand presentations for the general public, patients and HCPs, including website content, newsletters, and press releases.
- Represent GO2 Foundation at the National Lung Cancer Roundtable, national professional conferences (ASCO, IASLC. etc.), and strategic medical facility meetings.
- Serve as a member of the GO2 leadership management team guiding the organization to mission success.

QUALIFICATIONS and EXPECTATIONS

- Commitment to GO2 Foundation’s mission.
- Demonstrated ability to lead effective and collaborative programs and teams with proven results.
- Must have excellent written and oral communication skills.
- Must be a self-starter – highly motivated.
- Able to think critically and strategically.
- Must anticipate need for critical medical information.
- Able to work in fast-paced environment.
- Must be able to work well under pressure – meet deadlines.
- Must be agile, able to multi-task and react quickly to unanticipated events.
- Work well with others – be a team player – and understand supporting role critical analysis plays in others’ assignments.
- Experience developing and managing program budget.
- Ability to travel regularly.

**BENEFITS**

**GO2 offers an exceptional benefits package, including:**

- Fully paid health insurance, dental and vision insurance for individual employees
- Fully paid Life insurance, AD&D, Short Term Disability and Long Term Disability, EAP
- 11 paid holidays plus multiple additional annual holiday days, generously given by our President, including between Christmas and New Year’s Day.

Opportunities to work remotely and telecommute.

While we work hard, we understand personal and family needs and incorporate a great deal of flexibility for staff.

**WORK ENVIRONMENT / PHYSICAL REQUIREMENTS**

This job will be performed in an office environment, primarily sitting at a desk and using a computer and phone. In order to perform the essential functions of the job, the employee must be able to walk, bend, occasionally lift or move up to 25 pounds, operate a computer and other office equipment. The noise level in the work environment is usually low to moderate. Must be able to travel occasionally.
